## Explanatory notes

This statistical annex to the 2021 EMN Annual Report on Migration and Asylum provides an overview of relevant statistics.

Part 1 was produced by Eurostat and compiles relevant European statistics for the EU and Norway, organised in nine thematic areas, covering the period 2018-2021. Since 2021 data were not available at the time of publication for certain datasets, in these cases the period 2018-2020 is covered.

Part 2 consists of complementary national data provided by EMN National Contact Points (NCPs) in the framework of the EMN Annual Report and Statistical Annex.

Part 3, the guide 'How to read the statistical annex' available on [page 35](#) describes each individual chart presented in Part 1 and provides links to the respective data sources.

## European statistics on migration and asylum in the EU and Norway

This part presents relevant migration-related data organised in up to nine thematic sections - depending on data availability. The dashboard-like layout of the annex allows simultaneous visualisation of different indicators. For some indicators, data are rounded in the source. The sum of percentages or of individual values might not add up to 100 or to the total value. This is due to rounding and confidence intervals in the original data. A 'How to read the statistical annex' guide, describing each individual chart and providing links to the data sources, is available on [page 35](#).

Data presented in this part always refer to the European Union plus Norway, unless otherwise specified.

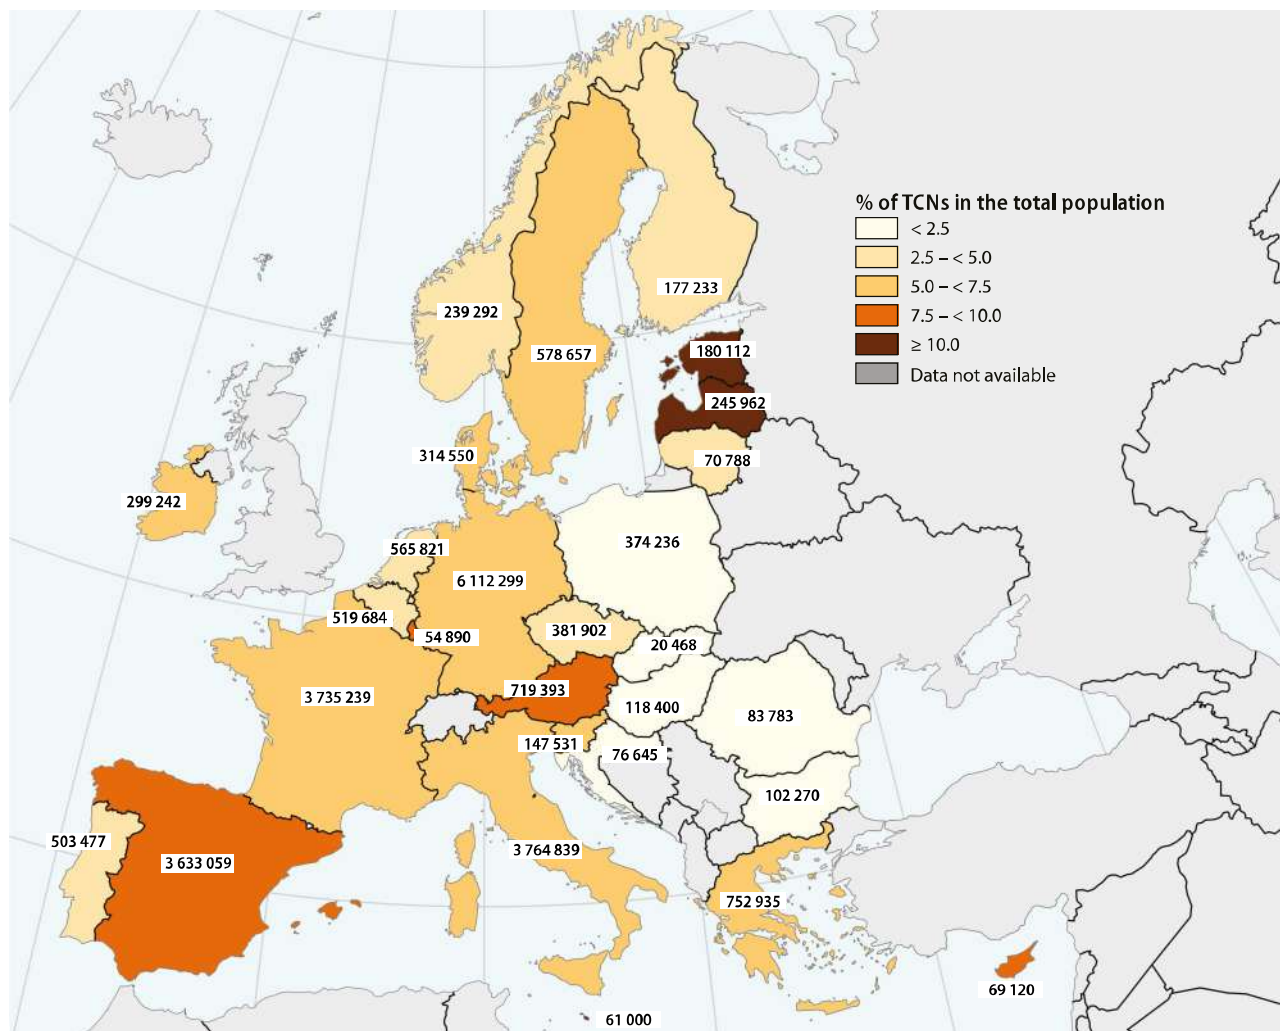

For comparability purposes, EU values are calculated based on the 27 EU Member States, following Eurostat's aggregate 'EU27 countries (from 2020)'.

Further information about European statistics on migration and asylum could be found at <https://ec.europa.eu/eurostat/web/migration-asylum>

European statistics are produced by Eurostat in partnership with National Statistical Institutes and other national authorities in the EU Member States. This partnership is known as the European Statistical System (ESS). It also includes the statistical authorities of the Iceland, Liechtenstein, Norway and Switzerland. Any questions about European statistics can be addressed to the [Eurostat multilingual user support service](#).

Note for France: Number of UAMs entrusted by legal decision from 1 January to 31 December 2021 included. (Source: Mission MNA - SDMPJE - DPJJ - Ministry of Justice, March 2022) The French UAM mission is not informed of situations which could lead to asylum applications. These data may include some asylum applications.

Note for Croatia: Total number represents number of UAMs detected in illegal border crossing or illegal stay, without those who applied for asylum.

Note for Italy: Against 7 080 UAMs on 31 December 2020. Data are provided by the Ministry of Labour and Social Policies, which is responsible for monitoring the presence of UAMs in the Italian reception system. They refer to the presence of

UAMs on 31 December 2021. In Italy, all UAMs have access to the reception system regardless of whether or not they have applied for international protection.

Note for Hungary: Data of the child protection authority.

Note for Luxembourg: All unaccompanied minors must apply for international protection in Luxembourg.

Note for Poland: Art.186 (1) p. 2 Act on Foreigners.

Note for Slovak Republic: Source: Ministry of Labour, Social Affairs and Family of the Slovak Republic. In 2021, Slovak Republic recorded 21 UAMs applying for asylum.

Note for Sweden: In Sweden, unaccompanied minors are normally registered in the asylum system.

Note for Norway: Norway does not have unaccompanied minors outside the asylum procedure.

Note: 'Presumed' victims are persons who fulfil the definition of victim of trafficking in human being as outlined in Directive 2011/36/EU, but who have not been formally identified by the relevant authorities (i.e. the national person/body authorised to formally identify victims).

More than one form of exploitation may be associated with each victim, therefore the statistics presented in this section may not necessarily agree with the overall totals entered above.

'Identified' victims are those whom have been formally identified by the relevant authority (i.e. the national person/body authorised to formally identify victims). This terminology is in keeping with terminology used by Eurostat: Eurostat Methodologies and Working papers: Trafficking in human beings.

"n/i" means information not available.

"c/d" means Confidential data based on low number of identified third-country national victims of trafficking in human beings."

Note for Belgium: Included data on smuggling.

Note for Germany: Figures for 2021 will be published in the fall of 2022.

Note for Estonia: All victims were presumed victims, of which four were transgender presumed victims in sexual exploitation, they are added +4 in males rows.

Note for Greece: In forms of exploitation are counted multiple forms and not only

one form per victim.

Note for Spain: Top 3 citizenships by form of exploitation: Sexual: Colombia, Paraguay, Venezuela; Labour: Honduras, Colombia, Nicaragua.

Note for France: Data included in the table add information provided by the Central Office for Combating Illegal Employment (OCLTI, ministry of the Interior) for labour exploitation and information provided by the General Directorate for National Police (DGPV, Delegation for victims, ministry of the Interior) for sexual exploitation. Data include TCNs and European victims. Possibility of duplications in the table (the same case may include several infringements). Furthermore, the nature of infringements specific to trafficking in human beings do not make it possible to identify the form of exploitation. There may therefore be victims of sexual exploitation or forced begging, for example. In the data are included statistics for the following offences: Servitude reduction/Slavery reduction/Forced labour/Unfair working conditions and/or accommodation.

The top 4 nationalities listed apply for both labour and sexual exploitations and do not include top EU nationalities.

Note for the Netherlands: There is no formal identification in the Netherlands, numbers shown are victims who are reported to the IND in relation to the reflection period or a residence permit for victims of trafficking in human beings. The National Rapporteur publishes once a year an overview of all victims of trafficking in human beings of the previous year. This report is published in the fall and includes information on national, European and TCN victims. Due to a difference in sources the data provided here might deviate from the data

published by the National Rapporteur later this year.

Note for Austria: The reported data refer to Art. 104a of the Criminal Code. Data includes third-country nationals and EU citizens.

Note for Poland: National Prosecutor's Office's data.

Note for Slovak Republic: Source: Ministry of Interior of the Slovak Republic. Confidential data based on low number of identified TCN victims of trafficking in human beings.

Note for Finland: Source: Assistance system for victims of human trafficking (Finnish Immigration Service). The number of identified victims is just the number that were identified by the Assistance system. A person can be identified as a victim of human trafficking by other authorities as well such as Police, Border Guard, court or prosecutor during an investigation or a court proceeding.

Note for Sweden: One individual can be the victim of several forms of exploitation at the same time. The total number of victims identified is therefore not the same as the sum of victims of the different forms of exploitation.

Note for Norway: Norway does not have a national identification authority and can therefore not provide the total number of TCNs identified as victims of trafficking in 2021. UDI decided upon 27 cases concerning presumed victims of trafficking (reflection, temporary residence permit and asylum) and 11 presumed victims of trafficking returned with IOMs assisted voluntary return program. These numbers do not reflect the total number of victims receiving assistance in Norway. The number includes EEA citizens.

in France (DGEF)/Ministry of the Interior, April 2022. For 2021 data are provisional data.

**Note for Cyprus:** The law of combating of human trafficking and exploitation of human beings and victims protection in Cyprus, is fully harmonised and is in relevance to the international conventions.

**Note for Latvia:** Two TCN were identified as victims. Both had obtained permits before entering country.

**Note for Hungary:** These data all relate to the same person.

**Note for Poland:** Number of residence permits granted and requested: data from the Office for Foreigners (based on art.176 of the Act of Foreigners).

**Note for Slovak Republic:** Source: Bureau of Border and Foreign Police of the Police Force Presidium.

**Note for Finland:** Total number of residence permits requested 2021: Female: 12 (5 first and 7 extended), Male: 16 (11 first and 5 extended); Total number of residence permits granted 2021: Total: 29 (14 first and 15 extended), Female: 14 (7 first and 7 extended), Male: 15 (7 first and 8 extended); Sources: Finnish Immigration Service, National Assistance System for Victims of Human Trafficking.

**Note for Sweden:** The figures given reflect the number of permits issued or extended in 2021, not the number of persons. One person can be issued several permits during a year.

**Note for Norway:** The residence permit according to Norway's national provisions refers to a temporary permit for up to 12 months, on the basis of a police complaint against the traffickers, both for TCN and EEA citizens. The permit may be renewed.

Note: The data presented in the table are not limited to traffickers from third-countries only.

"n/i" means information not available.

*Note for Belgium:* Data on arrested/otherwise involved in a criminal proceeding: this is the number of unique suspects registered by the police services in respect of human trafficking and human smuggling registered in the ANG (General National Database). It concerns the data for the full year 2020 and the first semester of 2021. The date of closure of the database is 22/10/21. The figures for the full year 2021 will be available at the end of June / beginning of July this year.

*Note for Bulgaria:* The figures refer to suspects apprehended at the state border. The actual number of people to be convicted cannot be specified correctly due to three-instance type of court proceedings.

*Note for Germany:* Figures on arrested traffickers for 2021 will be published in the fall of 2022; data on convicted traffickers is not available.

*Note for Estonia:* Penal Code § 133. Arrested/otherwise involved means prosecuted and sent to court.

*Note for Ireland:* While a total of 6 persons were arrested in 2021 for human trafficking related investigations, 19 persons were investigated.

*Note for France:* Directorate for Criminal Affairs and Pardons (DACG), Ministry of Justice, SID-Cassiopée, March 2022.

*Note for Croatia:* 3 perpetrators were convicted but judgment is not final.

*Note for Latvia:* The number of persons suspected in crimes according to CL 154.1 "Trafficking in human beings".

*Note for Hungary:* The first column shows the number of persons against whom prosecution was commenced for human trafficking.

*Note for the Netherlands:* The search engine in the registration system of the Courts is improved. They can give more accurate numbers of proven statements in relation to the specific articles of the criminal law.

*Note for Poland:* National Prosecutor's Office's data - arrested/otherwise involved in a criminal proceeding; Ministry of Justice's data - convicted.

*Note for Slovenia:* 18 natural persons and 2 legal entities.

*Note for Finland:* Includes aggregate data on individuals suspected of human trafficking or aggravated human trafficking offences. (One hit per individual in dataset).

*Note for Sweden:* National statistics on convicted traffickers have not yet been published by the responsible authority in Sweden.

*Note for Norway:* 29 cases of trafficking in human beings were reported to the police in 2021 and investigations were completed in 36 cases. The 36 cases involved 47 suspects and resulted in 51 charges against 31 people.

**Note:** Enforced return: Enforced return, removal refers to the situation in which the third-country national is subject to the enforcement of the obligation to return (the enforcement procedure has been launched). Definition based on Art 3.5 and 3.8 Directive 115/2008/EC.

**Voluntary return:** Voluntary return refers to the situation in which the third-country national complies voluntarily with the obligation to return (i.e. no enforcement procedure had to be launched) and this departure is confirmed by the information from eg. the border authority or the consulate authorities in the country of origin or other authorities such as IOM or any other organisations implementing a program to assist migrants to return to a third-country. Definition based on Art 3.8 Directive 115/2008/EC.

**Assisted return:** Assisted return refers to the situation in which the third-country national was assisted to return. He/she is the beneficiary of a national or EU MS cooperative program to encourage return and to provide reintegration assistance. The TCN received (i) an in-kind assistance prior to departure (e.g. purchase of plane tickets) and/or (ii) in-cash allowances at the point of departure/upon arrival and/or (iii) an in-kind or in-cash reintegration assistance. Please note that beneficiaries of assisted return programs are mostly TCN who voluntarily return but some may also have been returned by force Definition based on Art 3.8 Directive 115/2008/EC and Asylum and Migration Glossary 2.0.

## How to read the statistical annex

The following describes each individual chart presented in Part 1 of the statistical annex and provide links to the data sources. Depending on the indicator, the data presented in this publication were extracted in April and May 2022. For any question, please contact EMN ([emn@icf.com](mailto:emn@icf.com)) or Eurostat ([ESTAT-USER-SUPPORT@ec.europa.eu](mailto:ESTAT-USER-SUPPORT@ec.europa.eu)).

For comparability purposes, EU values are calculated based on the 27 EU Member States, following Eurostat's aggregate 'EU27 countries (from 2020)'. Data always refer to EU and Norway, unless otherwise specified.

*Note:* For Latvia and Estonia, the number of third-country nationals includes recognized non-citizens. This is a category introduced by Eurostat to cover a "person who is not a citizen of the reporting country nor of any other country, but who has established links to that country including some but not all rights and obligations of full citizenship. Recognised non-citizens are not included in number of EU citizens." This category is used in Eurostat's population and migration statistics.

### Legal migration and mobility

#### **Number of third-country nationals (TCNs) and their share in the total population on 1 January 2021, EU Member States and Norway**

The map shows the number of those people holding citizenship of a non-EU Member State residing in EU Member States and Norway on 1 January 2021, and their share in the total population. To show the share ranges, the countries are coloured according to the classification scheme that has five classes (five different symbol colours are assigned). Link to data source:

#### **Third-country nationals (TCNs) as % of total population on 1 January, EU and Norway**

The bars show the number of people holding citizenship of a non-EU Member State residing in EU Member States and Norway. This is shown as an absolute number (right-hand side)

and as a share of the total population of the EU and Norway (next to the bars). Data covers the last four years. Link to data source:

<https://ec.europa.eu/eurostat/databrowser/bookmark/0bb119b2-ef52-405a-a4cc-96c5c1ab95fa?lang=en>

#### **First residence permits issued to third-country nationals: total number and % of total population, EU and Norway**

The bars show the number of first residence permits issued every year for the last three years. Data covers a period 2018-2020. The percentages on the top of each bar show the share of permits over the population of the EU and Norway. Link to data source:

<https://ec.europa.eu/eurostat/databrowser/bookmark/034dccc7-759e-48aa-904f-dfd0cfc3727c?lang=en>

#### **Third-country nationals and nationals on 1 January 2021 by sex and age, EU and Norway, (%)**

The population pyramid illustrates the demographic structure of the third-country national (solid colour bars) and national (bordered bars) populations on 1 January 2021. The bars are stacked on top of one another, each representing an age category (5-year age groups), with the youngest age group represented by the bottom bar and the oldest age group by the uppermost bar. #### **Top 3 countries whose citizens received a first residence permit: number of permits and % of total permits, EU and Norway**

The bars show the number of first residence permits issued annually to the top three citizenships, in absolute number and as a percentage of the total number of residence permits issued (to known citizenships) by the country in each year. Data covers a three-year period (2018-2020). If more than one citizenship occupies the last position, only one is displayed (following an inverse alphabetical order). Link to data source:

## International protection including asylum

### First-time asylum applicants in 2021: absolute number, ratio per 1 000 population and the main inflows, EU Member States and Norway

The map shows the number of first-time asylum applicants in EU Member States and Norway in 2021 and their ratio per 1 000 population. To show the share ranges, the countries are coloured according to the classification scheme that has five classes (five different symbol colours are assigned). Additionally under the map, the main inflows by continents (with top 3 countries of citizenship where relevant) are presented. The information is completed with the number of stateless persons and those for which the country of citizenship is unknown. Links to data sources:

### Top 3 citizenships of first-time asylum applicants: number and % of total first-time applications, EU and Norway

The chart shows the top three citizenships of people who have lodged applications for asylum (rounded data). The top three citizenships are sorted top-down by decreasing number of first-time asylum applications. The number of applications per citizenship and the share of these of total applications in the EU and Norway are shown. If more than one citizenship occupies the third position, only one is displayed (following an inverse alphabetical order). Link to data source:

### Top 3 citizenships of asylum applicants granted protection at first instance: number, % of total first instance decisions and recognition rates, EU and Norway, 2021

The chart shows the three citizenships with the highest number of first instance asylum decisions in 2021 in the EU and Norway (rounded data). The number of decisions taken for each citizenship is reported inside the bar. This is shown as an absolute number and as a share of the total number of positive decisions taken in the country in 2021. The recognition rate (share of positive decisions in total number of decisions taken for a particular citizenship) is provided next to the bars. Link to data source:

## Integration

### Integration indicators for nationals of the country and third-country nationals (TCNs) in the country, (%)

The chart is divided into four subtopics, each described by two indicators. The value of the indicator [as %] is given for 'Nationals' (i.e. citizens of the Member State) and third-country nationals – 'TCNs'; i.e. citizens of non-EU countries. Data refer to the EU only.

### SOCIAL INCLUSION

**Persons at risk of poverty or social exclusion (18+)** shows the percentage of adults who are either at risk of poverty, face serious material deprivation or live in a household defined as having a 'very low work intensity'. Link to data source: <https://ec.europa.eu/eurostat/databrowser/bookmark/8742e2a4-746f-498b-804f-c9bf1ad4cc86?lang=en>

**Overcrowding rate (18+)** shows the percentage of adults who live in a household defined as 'overcrowded'. Link to data source: <https://ec.europa.eu/eurostat/databrowser/bookmark/57eee51c-dbe2-4b5f-a988-f02d5830c79f?lang=en>

### EDUCATION

**Tertiary education (levels 5-8, 25-34)** shows the percentage of adults aged 25-34 who have tertiary educational attainment. Data on educational attainment are classified according to ISCED 11 and presented for tertiary education (ISCED levels 5-8). Link to data source: <https://ec.europa.eu/eurostat/databrowser/bookmark/dc8b4c4a-2680-49ca-9173-0b24fd98ef64?lang=en>

**Participation rate in education and training (last 4 weeks, 18-64)** shows the percentage of adults who received education or training (formal or nonformal) during the four weeks preceding the labour force survey. Link to data source: <https://ec.europa.eu/eurostat/databrowser/bookmark/cfb9b5e0-6463-4455-b1c2-5dbd0620391d?lang=en>

### LABOUR MARKET

**Employment rate (15-64)** shows the percentage of the total working-age population that is employed. Link to data source: <https://ec.europa.eu/eurostat/databrowser/bookmark/db16de95-0742-431a-af1d-b07559edc037?lang=en>

**Unemployment rate (15-64)** shows the percentage of unemployed people in the labour force. It is calculated as the ratio between the unemployed population over the sum of employed and unemployed population within the same group. Link to data source: <https://ec.europa.eu/eurostat/databrowser/bookmark/00576f94-2fbd-4fa7-b0dd-4e633db46ef9?lang=en>

## YOUTH INTEGRATION

**Early school leavers (18-24)** shows the proportion of people aged between 18 and 24 who have completed no more than lower secondary education and who are not involved in further education or training. Link to data source: <https://ec.europa.eu/eurostat/databrowser/bookmark/6762b502-066f-44d4-9e17-e0bb623083ef?lang=en>

**Young people neither in employment nor in education and training (18-24)**, shows the proportion of people aged between 18 and 24 who are neither employed nor in education or training in the four weeks preceding the survey. Link to data source: <https://ec.europa.eu/eurostat/databrowser/bookmark/c04067c1-8c99-4109-88e1-4da4efdce55?lang=en>

### Comparison between integration indicators for third-country nationals (TCNs) and nationals

The spiderweb graph shows the indicators for which the integration gap is the most significant. Values for third-country nationals have been normalised by dividing them with the values recorded for nationals. For the employment rate, the education attainment and the participation rate in education and training, the ratio has been inverted in order to interpret the obtained value in the same way as for the five other indicators. Links to data sources – the same as listed above separately for each indicator.

## Citizenship and statelessness

### Third-country nationals who acquired citizenship (absolute number and ratio per 1 000 population), EU and Norway

The chart shows the number of third-country nationals who have acquired the citizenship of the country in absolute terms and in relative terms as a ratio per 1 000 population. Links to data sources: <https://ec.europa.eu/eurostat/databrowser/bookmark/5cb0c468-e6e9-40dd-bb66-62a7805a0694?lang=en>

## **Border, Schengen and visas**

### **Uniform short stay visas issued, EU and Norway**

The chart shows the total number of uniform short stay visas (total number of uniform C visas) issued by the EU Member States and Norway both at the consulates and the border crossing points. For Schengen countries, uniform short stay visas entitle the holder to stay in the territories of all Member States for a period of maximum 90 days/180 days. Such visas may be issued for the purpose of a single entry or multiple entries ("MEVs"). Please note that the Member State whose consulate receives the visa application may be different from the Member State of main destination. Figures for Bulgaria, Croatia, Cyprus and Romania are not included in the graph as they do not yet issue uniform Schengen visas. These Member States issue national short-stay visas (including MEVs) valid only for their own territories.

### **Uniform short stay visas issued in top 3 consulate countries (% of total number of uniform visas issued in consulate countries)**

The chart shows the number of uniform short stay visas issued in the three consulate countries with the largest total number of issued visas. It shows this as an absolute number and as a share of total uniform short stay visas issued. Please note that the consulate country might not be the same as the country of citizenship of the visa applicant, as this information is not available at the EU level. If more than one citizenship occupies the third position, only one is displayed (following an inverse alphabetical order). Link to data source:

## **Irregular migration**

### **Third-country nationals subject to immigration law enforcement (absolute numbers and ratios per 1 000 population), EU and Norway, 2021**

The chart gives an overview of the trend over the last four years for the following parameters commonly related to 'irregular migration'. All data are rounded:

- **Refused entry at the external borders** – third-country nationals formally refused permission to enter the territory of a country during controls at its external borders (including airports, harbours and borderlines). At the bottom, the chart on the left shows the top 3 citizenships refused entry – in absolute number and as a share of all citizenships refused entry.
